PRODUCT INFORMATION

Zerust[®] ICT[™] Vapor Capsules are easy-to-use, portable capsules that contain patented Zerust[®] ICT[™] corrosion inhibiting technology. Zerust[®] ICT[™] Vapor Capsules emit powerful corrosion inhibiting molecules into an enclosure that settle on metal surfaces and protect them from corrosion. Zerust[®] ICT[™] Vapor Capsules can be easily affixed to most surfaces with their peel-adhesive backing. Use Vapor Capsules to protect multiple metal types from corrosion in almost any enclosure or as a supplement to other Zerust[®] ICT[™] packaging products for added protection. Zerust[®] ICT[™] Vapor Capsules are particularly suitable for the corrosion protection of enclosures holding electrical gear as they leave no residue on contact surfaces.

APPLICATION EXAMPLES

A ZERUST[®] VC2-1 VAPOR CAPSULE PROTECTING ELECTRICAL CONNECTIONS IN A SMALL ENCLOSURE.

A ZERUST[®] VC6-1 VAPOR CAPSULE PROTECTING AN ENTIRE CONTROL ROOM FROM CORROSION.
